MOBILE COMMUNICATIONS PTY LTD

GPS Technology from SkyNet that drives maximum efficiency for your business

# Now you can locate the individual , not just the vehicle.

# SkyNet

MOBILE COMMUNICATIONS PTY LTD

**satTrack®** is an innovative GPS technology that combines **SkyNet's** easy to use **Fleet Information System ( FIS )** to deliver accurate location reporting and job dispatch for the Health Care industry, in real time with maps provided by **Google™**.

Job Dispatch

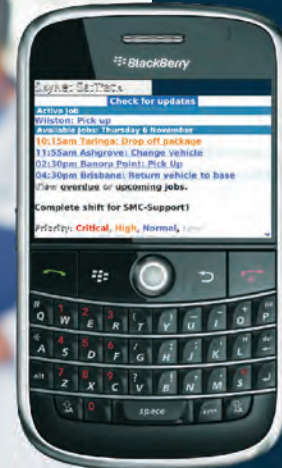

Duress

GPS Tracking

SkyNet's dynamic on screen **Fleet Information System ( FIS )** ... our web interface tool for providing global personal location and asset views with custom display configurations.

**satTrack®** is available on a range of GPS capable handsets including Blackberry™.

## Administration Time Saving

- Jobs are sent directly to each workers device ( no more faxed roster sheets ).
- Roster changes can be updated and sent out directly at the push of a button.
- Live view of each workers position provides an up to date schedule of ETA's or possible delays.
- Job exception parameters can be set and reported automatically.
- Distance travelled reports remove the need for manual log entry and audits.
- Accurate billable client time based on precise job time logs.
- Shift times captured and reported automatically.

## Process Improvements For Field Workers

- Route optimisation reduces unnecessary travel time and frustration resulting in more time spent face to face.
- No longer a need to find a facsimile machine to send back completed job sheets.
- Distance travelled reports removes the need to maintain manual log books and submit mileage claims.
- All in one device means there is no need to carry a separate mobile phone and work sheets, etc.
- Up to date rosters remove the frustration of working with out of date or inaccurate information.
- Live view of position removes the need to phone in with a location update.
- Optional duress alarm functionality offers peace of mind.

## Cost savings

- Reduction in unnecessary travel means lower staff numbers with improved productivity.
- An end to the time and cost involved in faxing paper rosters.
- Removal of the time spent phoning and then faxing amendments.
- Lower kilometres travelled results in less car allowance paid.
- Accurate Distance Travelled logs means an end to over payment of car allowances.
- The elimination of admin staff having to manually check and audit mileage claims.
- The automatic upload of job data results in a significant saving in administration time.

**SkyNet can  
Save You Valuable  
Time and Resources**
